Importance: High

Thanks Bethany/Chris-

I'm adding Erik's comment on the title that Chris concurred with. Alison, can you please run this version by folks. If this works, I'll have Eva get this into the infographic so we can share with OCSPP IO. I need this concurrence ASAP as Eva is leaving at 315. Thanks!

Per our discussions this morning, I want to make sure that these edits capture your comments. Changes to the title etc. negotiated with Sonia and OPA. If you (OGC) concur, then we just need the OPPT IO to concur, then we can insert the text into the infographic and share with the OCSPP IO. Almost there I hope. Thanks!

As Robert alluded too, we have some additional minor suggestions to the current version. These were circulating through OPPT IO last night – and represent comments from NPCD and OPPT IO.

(Robert and team – OPPT IO's additions to NPCD's were very minor. We stuck one extraneous instance of the word "at" and removed the word "products" from the title of the risk evaluation section.)

Thanks for the chance to look.

Hi Chris- Please find attached for your review the draft SNUR infographic that alluded to this am. I've attached the image along with a Word Doc with just the text for ease of review, but I do think it is important to see it in the context of the infographic.

We've been asked to have this back to the AA COB so we have a quick turnaround. I appreciate your attention to this one. I will be running this concurrently through review with my managers at the division level but it would be great to get your input/concurrence on the legal end for OPPT IO review before routing to the OCSPP IO.

Also, I was in Richmond earlier but back in the office now and the rest of the afternoon. Let me know if you have any questions and feel free to call me to discuss as well.

Thanks so much!

Importance: High

Chris- I know Steve is out today and tomorrow. As such, we will need you or someone in OGC to review text that we are working directly with the OCSPP IO and the Administrator's Office on. Steve provided comment on previous iterations but we're updating the text based on OPA feedback/collaboration but it is important to have a legal eye for any flags. The text will be in plain language, at least that is the intent, as the purpose of the infographic is to communicate the action and how it relates to the risk evaluation and what remains of the 1989 ban in simple terms to the general public.

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

Ex. 5 Attorney Client (AC)

We'll soon be sharing that text. I appreciate your attention to this and I value your feedback.
